Description of the organisation

Majuba TVET College is one of 50 public Technical and Vocational Education and Training (TVET) Colleges in South Africa, operating under the auspices of the Department of Higher Education and Training (DHET). The College is one of the largest Technical and Vocational Education and Training service providers in the country, specialising in priority skills development.

Majuba TVET College is the key service provider for Technical and Vocational Education and Training in the Amajuba and Umzinyathi Districts. It services major industries in these areas, in the sectors of iron- and steel manufacturing, mining (mainly coal), textile and clothing production, cement chemical manufacturing, tyre production, engineering and primary agriculture.

There are 8 Campuses, spread over a wide geographical area that includes Newcastle, Madadeni and Dundee. The College offers a diverse range of nationally recognised vocational and occupational programmes

Experience of the organization in previous European projects

Majuba TVET College has not been involved in any other European projects

Experience and Expertise of the organization in the project's subject area

Majuba TVET College promotes the enhancement of digital Skills where staff are constantly trained on the use of software packages like Geogebra , AutoCad, Microsoft packages , Active Presenter. We also utilise software packages (QuickExams) to set assessments.

Contributions that can be provided to the project

Majuba TVET College is committed to education and training, using cutting-edge technology and innovative teaching methodologies, to enhance and optimise teaching and learning opportunities. We aim to share our good practices and to expose other institutions to our staff that are in an advanced level when it comes to using technology in the classroom.

Reasons of involvement in the project

To be able to enhance classroom delivery with the effective use of technological advancements. To share the skills and expertise that we have with other educators both nationally and internationally. We also intend to place ourselves at the forefront of technological advancements and to maintain effective teaching and learning.

Contact Person's Experience and Expertise
